

A photograph of two deer with large, velvet-covered antlers standing on a grassy hillside. They are facing away from the camera, looking out over a vast, dense forest that fills the valley and covers the surrounding hills. The scene is captured in natural daylight, with the green of the forest contrasting with the brownish-tan of the deer's fur and antlers. The right side of the image is overlaid with a dark teal gradient containing the title and author's name.
